

## HydraSKYE Facial Aftercare

Congratulations on completing your HydraSKYE at SKYE Wellness & Aesthetics! To maintain the results of your treatment and promote the health of your skin, please follow these aftercare instructions:

1. **SUN PROTECTION:** Shield your skin with SPF 30+ sunscreen for 24 hours. Avoid prolonged sun exposure to prevent sensitivity and damage.
2. **HYDRATION:** Drink plenty of water to hydrate your skin from within. Apply a gentle, non-comedogenic\* moisturizer to lock in moisture and promote healing.
3. **AVOID HARSH PRODUCTS:** Skip exfoliants, retinoids, and harsh chemicals for 48 hours. These can irritate your skin post-treatment.
4. **HANDS OFF:** Refrain from picking, scratching, or scrubbing your skin. Let it heal naturally to avoid irritation and potential scarring.
5. **MINIMAL MAKEUP:** If you must wear makeup, opt for non-comedogenic products and apply them gently. Allow your skin to breathe and recover.
6. **ROUTINE SKINCARE:** Stick to your regular skincare routine, but avoid harsh products or aggressive treatments for a few days. Gentle cleansing and moisturizing are key.
7. **FOLLOW-UP:** Schedule follow-up appointments as recommended by your practitioner. These appointments help maintain your results and address any concerns.
8. **CONTACT US:** If you experience any unusual or persistent side effects, such as severe redness, swelling, or itching, don't hesitate to reach out to us for guidance and support.

By following these aftercare instructions, you can prolong the benefits of your HydraSKYE Facial and enjoy glowing, healthy-looking skin. If you have any questions or need further assistance, feel free to contact us. We're here to help you on your skincare journey.
